1. Presented herewith is a finally revised T/O for the [REDACTED] divided between the Office of the Senior Representative and his Staff, totalling [REDACTED] slots, and those operating functions to be carried out under general staff supervision and located, for the most part, outside of [REDACTED]. These operating functions require a total of [REDACTED] slots. In addition to the staff proper and the functional operating activities, there are certain operational activities already carried on in the [REDACTED] area (Commo, Commo training, Medical, for example) which will come under the command of Senior Representative and provide staff and operational assistance without the necessity of adding slots to the T/O.

2. Originally it had been contemplated that a sizable logistics division would be established on the Senior Representative's Staff in [REDACTED] which would be responsible for staff direction of logistics as well as for a number of logistics functional activities in support of [REDACTED] activities and of [REDACTED] activities where required. It has been decided to retain only three positions in the field of logistics planning on the Staff of the Senior Representative under the direction of the Chief of Administration and to incorporate [REDACTED] logistics functional activities' slots (including the IBM Machine Records Unit) in a revised T/O for the [REDACTED] Command Unit and to place the logistics activities unit physically on [REDACTED].

3. Included in the accompanying presentation are a number of delegations of authority to the Senior Representative which have been discussed and agreed to by a staffing out with the pertinent elements of DD/P's office.

4. It is requested that approval be given to the T/O presented herewith. It is also requested that approval be given to the procedure whereby the logistics activities unit slots are established in Headquarters for recruiting. These slots will, at the same time, be transmitted to the field and incorporated in a new T/O for [REDACTED] to be formulated in the field and sent to Headquarters for final approval.
